

Success Stories from Insperity Recruiting Services

Insperity™ Recruiting Services has helped thousands of clients secure their most valuable asset: their people. Here is a sampling from some of our most recent successes:

A start-up medical company needed to grow from less than 10 employees to 150 employees in four months. Insperity created a custom recruiting process, developed a strategy and spent considerable time on site learning the client's needs and meeting with hiring managers. As a result, Insperity Recruiting Services was able to recruit all of the requested positions prior to the deadline. The client is now poised to grow to an expected 900 employees within three years.

An Insperity client in San Antonio without a recruiting plan was awarded a large city-wide contract that left its management team scrambling to hire more than 500 skilled employees. Insperity Recruiting Services stepped in and took control of the client's manual process by designing a recruiting strategy to fit their needs. During the course of the project, we interviewed, screened and verified certifications on more than 1,200 applicants to allow the client to hire the most qualified employees in three months.

A client was concerned about the amount of money it was spending utilizing agencies to fill positions, only to result in a 30 percent turnover rate. After the client turned to Insperity Recruiting Services for assistance, we consulted with their leaders to understand their needs and seamlessly took over their recruiting function. Insperity has since become an integral part of their organization by establishing consistent policies and procedures, creating background check standards, utilizing pre-employment assessments, and thoroughly training their hiring managers. Insperity has positively impacted the client's bottom line and added more than 200 talented employees to their workforce while reducing their turnover rate.
